

Project Report Template

INTRODUCTION: -

1.1 Overview

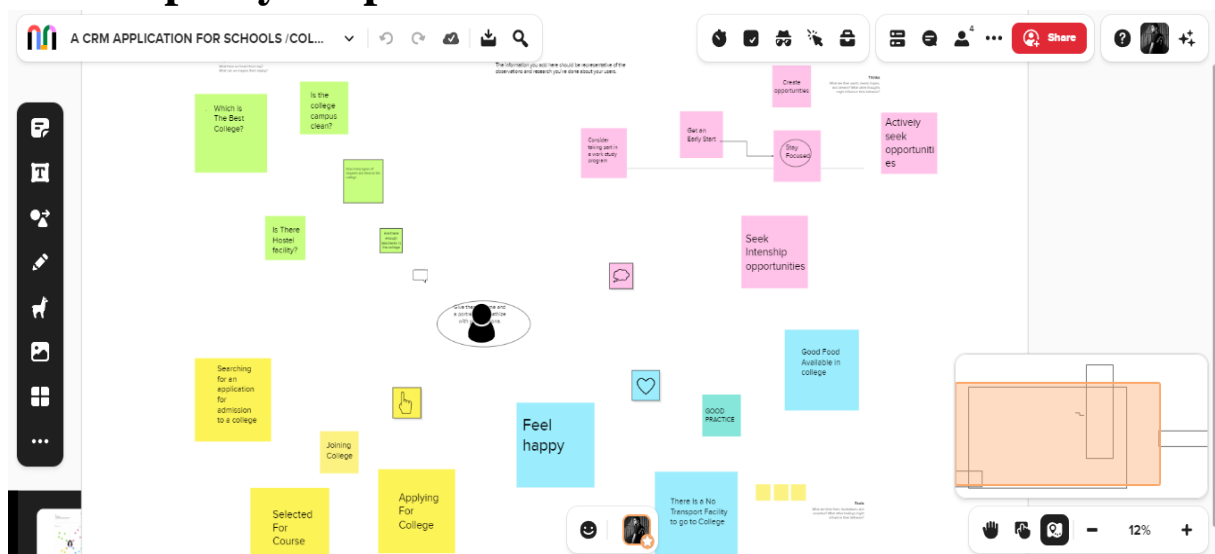

Schools are facing more competition than ever before, and they need to find innovative ways to attract and retain students. One solution that many schools are turning to is School CRM software. This technology helps schools manage their relationships with students and parents, and it can be a powerful tool for increasing admissions. In this blog, we'll explore what is CRM software for Schools, how it works, and how it can help in boosting enrollment and improving student engagement.

1.2 Purpose: -

A school CRM (Customer Relationship Management), software is a specialized tool designed to manage and track student interactions, data, and automate tasks related to student recruitment, enrollment, and retention. This type of software is aimed at simplifying and streamlining the enrollment and retention process and provides valuable insights into student behaviour and preferences, which can help schools and preschool to make data-driven decisions.

2.Problem Definition and Design Thinking: -

2.1. Empathy Map

2.2 Ideation and Brainstorming map Screenshot:

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 10 minutes to prepare
- 1 hour to collaborate
- 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

A Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM
How might we speak student interest in local issues?

Key rules of brainstorming
To run a smooth and productive session

- Stay in topic.
- Encourage wild ideas.

2 Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

Person 1

Increase Field teams productivity	Increase data security	Increase changes of making right decision
Increase efficiency		

Person 2

Improve handling	Automated data management	Improved conversion rates
customer retention		

Person 3

Increase sales leads	Marketing ideas new products	Activity management

Person 8

Games & competitions

Community issue debates

Local trivia in auditorium

Learn about the community via drinking game.

"I voted sticker gets you 10 credits at the student form.

Shows & Videos

"Are you smarter than the dean?"

Get three most popular slloms to advance an episode on and issue.

DIY campaign videos/commercials

Celebrities & Superstars

Get the popular student athletes to advocate for issue.

Meet the mayor.

Campus celebritie make political gossip magazines.

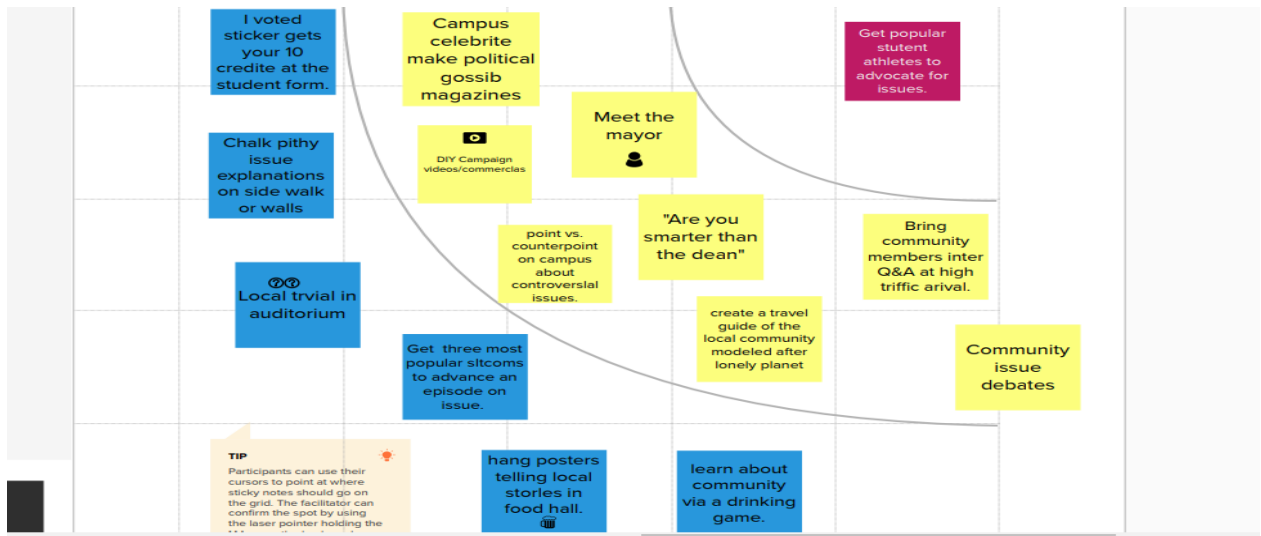

Wild card

Put together a list of what food organization meet on what dates and times.

Greate a travel guide of the local community modeled after lonely planet.

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

5.ADVANTAGES & DISADVANTAGES:

As you switch to using a CRM software solution for schools, many benefits come along. Not only does it enhance your efficiency on the performance end but also enables you to foster your relationships with existing and potential students/ parents. Here are some of the common benefits:

1. **Increased Efficiency:** School CRM software automates many of the manual processes involved in student and parent communication, data management, and **reporting**. This can save schools time and resources, allowing them to focus on other important tasks. By having all relevant information in one place, staff can access student and parent data quickly and easily, reducing the need for manual data entry and improving accuracy.
2. **Better Student Engagement:** It enables schools to track interactions with students and their parents, and provides a platform for **personalized communication**, this can help schools build stronger relationships with

students, increase engagement, and provide a better overall experience. Schools can also use the software to send targeted communications and track student progress, helping to identify any areas of concern and address them promptly.

3. **Improved Data Insights:** With all data stored in one place, schools can gain valuable insights into student behaviour, preferences, and trends. This information can be used to make informed decisions about admission processes, student engagement, and resource allocation. Schools can also use the data to monitor student progress and identify areas for improvement.
4. **Enhanced Reputation Management:** School CRM software helps schools in managing their reputation by tracking student satisfaction and addressing concerns in a timely manner. By having all relevant information in one place, schools can respond to student and parent inquiries more efficiently and effectively. This can help schools maintain a positive image and build stronger relationships within the community.
5. **Increased Admissions:** School CRM software can automate many of the tasks involved in student enrollment, allowing schools to reach more prospective students and increase admissions. By using the software to track student interactions and send targeted communications, schools can improve their outreach efforts and increase their chances of attracting new students.
6. **Better Alumni Management:** A CRM can help schools keep in touch with alumni and tap into their networks for fundraising and recruitment. Schools can use the software to track alumni interactions, send targeted communications, and organise events. This can help schools maintain strong relationships with their alumni and leverage their networks to support their mission.

APPLICATION:

1. Automated Marketing: The software can automate marketing tasks such as email campaigns, SMS messaging, and social media outreach, allowing schools to reach more prospective students.

2. Lead Management: A CRM can help schools track and manage leads, providing a centralised database of prospective students. This allows schools to prioritize leads and follow up with them in a timely manner.

Personalized Communication: By tracking student interactions and preferences, schools can send personalized communications that are more likely to resonate with prospective students.

4. Data Insights: The software provides valuable insights into student behaviour and preferences, allowing schools to make informed decisions about their recruitment efforts.

5. Improved Outreach Efforts: With all data in one place, schools can analyse trends and make data-driven decisions about their outreach efforts. This can help schools reach the right students with the right message, increasing the chances of attracting new students.

CONCLUSION:

Overall, School CRM software can help schools streamline the enrollment process, reach more prospective students, and increase admissions. It helps schools and preschools in managing student data and interactions, automate tasks related to recruitment and enrollment, and improve the efficiency of their recruitment and retention efforts. It can also help to increase the effectiveness of enrolment campaigns. SCHOOL MANEGEMENT CRM APPLICATION enables you to do all this and much more on a unified platform. Schedule a demo today and learn more about a purpose-built growth solution for schools.

FUTURE SCOPE:

Customer Relationship Management is the best means to reach your customers and serve them in the best way. It automates all those tasks which enterprises used to perform manually. Every organization is set up with some frustrated ambitions and targets. The better the performance of your business, the better the relationship with your customers will be. CRM software Development can turn your business into a powerhouse of sales. Thus, CRM software is no longer essential, in fact mandatory for small and medium businesses. Now, you can easily access the CRM software virtually from anywhere and anytime. All you need an internet connection to further the scope of doing your business. So, don't be late and perform the necessities for implementing the CRM software in your business.
